PURPOSE OF THE BILL

The purpose of H.R. 695 is to establish the Oil Region National Heritage Area.

BACKGROUND AND NEED FOR LEGISLATION

During the late 1980s, local leaders in the town of Titusville, Pennsylvania, home of the first oil drilling site in North America, were looking for a way to attract more tourists to the region. The leaders decided to promote the area's oil heritage, and began to lobby the State of Pennsylvania for its designation as a State Heritage Area. In 1994, Governor Robert P. Casey designated an area consisting of approximately 7,075 acres as the Oil Region Heritage Park. The Park is located in all of Venango County, and also includes the City of Titusville and Oil Creek Township in Crawford County's eastern corner.

H.R. 695 would establish the Oil Region National Heritage Area in Venango County and in part of Crawford County, Pennsylvania. This area was originally created as a State Heritage Area to preserve the Oil Creek Gorge area, the heart of the early oil period where many oil boomtowns originated due to oil discoveries, and then diminished in size when oil production declined.

Since its designation in 1994, the State Heritage Area has become a favorite getaway for many tourists, and many of the local economies have benefitted from the increase in revenue. Visitors are able to enjoy the region in a variety of ways including over 70 miles of hiking and interpretive trails which lead to areas of historic and scenic interest. Other activities include camping, canoeing, hunting, and fishing. Tourists may also stop by the area's visitor center in Petroleum Center, an old boomtown, where displays and programs on oil history are presented year round.

In 1998 the non-profit corporation Oil Heritage Region, Inc. was established. The Oil Heritage Region, Inc.'s primary role is the planning and development of the park's infrastructure, including improvements which help promote tourism, recreation, and the development of cultural facilities. Past projects have included the development of a trails system for outdoor recreation, the design of an educational program about the region, and the promotion of new tourist attractions.

The Oil Region National Heritage Area would enhance the cooperative framework to improve and interpret the significant resources in the Oil Region. The Oil Heritage Region, Inc. would re-

main the management entity of the Area and work with the Secretary of the Interior for the further development of the region. The management entity would be responsible for the development of a management plan and completing an inventory of the resources contained in the area. Appropriations for this bill are authorized at no more than \$1 million per year and shall not be more than \$10 million total. H.R. 695 also provides that federal financial assistance shall not be more than 50 percent of the total cost of any activity carried out with that assistance.

During the 106th Congress, the Subcommittee on National Parks and Public Lands held a hearing on H.R. 3190, the predecessor to H.R. 695, which was opposed by the National Park Service because a feasibility and suitability study had not been conducted to determine whether such designation was appropriate. In the months following the hearing, a field study was conducted by the National Park Service, which concluded that establishment of the area as a national heritage area site was appropriate. In addition, H.R. 695 reflects a number of technical changes and modifications recommended by the Department of the Interior.

COMMITTEE ACTION

H.R. 690 was introduced on February 14, 2001, by Congressman John Peterson (R-PA). The bill was referred to the Committee on Resources, and within the Committee to the Subcommittee on National Parks, Recreation, and Public Lands. On June 26, 2001, the Subcommittee met to mark up the bill. Subcommittee Chairman Joel Hefley (R-CO) offered an amendment in the nature of a substitute to add the map title and date to Section 3 of the bill. It was adopted by voice vote. The bill, as amended, was then forwarded to the Full Committee. On June 27, 2001, the Full Resources Committee met to consider the bill. No further amendments were offered and the bill as amended was then ordered favorably reported to the House of Representatives by voice vote.

Enclosure.

H.R. 695—Oil Region National Heritage Area Act

H.R. 695 would establish the Oil Region National Heritage Area in Pennsylvania. The heritage area would be managed by the Oil Heritage Region, Inc., a nonprofit corporation. The bill would direct the Secretary of the Interior to enter into a cooperative agreement with the corporation under which the government would provide technical and financial assistance to prepare, update, and implement a management plan for the heritage area. The plan would include strategies for conservation, funding, development, and cooperation with state and local governments. The bill also would direct the Secretary to conduct studies to document the industrial, engineering, building, and architectural history of the heritage area. For these purposes, including implementing the plan and conducting historical studies, the bill would authorize the appropriation of \$1 million for each fiscal year after enactment, up to a total of \$10 million.

Assuming appropriation of the authorized amounts, CBO estimates that implementing H.R. 695 would cost \$10 million over the next 10 to 15 years. The bill would not affect direct spending or receipts; therefore, pay-as-you-go procedures would not apply. H.R. 695 contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act and would impose no costs on state, local, or tribal governments.

The CBO staff contacts for this estimate are Deborah Reis and Melissa Zimmerman. This estimate was approved by Peter H. Fontaine, Deputy Assistant Director for Budget Analysis.

COMPLIANCE WITH PUBLIC LAW 104-4

This bill contains no unfunded mandates.

PREEMPTION OF STATE, LOCAL OR TRIBAL LAW

This bill is not intended to preempt any State, local or tribal law.

CHANGES IN EXISTING LAW

If enacted, this bill would make no changes in existing law.
